

Startup Shakeup has grown up - and has programs for both
Startups: founders who want to start, grow and scale here, and
Shakeups: existing businesses who want to rethink & do business differently

What are you telling us you need?

Speaking to Startups they want support, to take up the opportunities these times offer, to grow into what they can be. It is the same with existing businesses, despite the challenges these times are full of opportunities to become a Shakeup, do things differently, thinking outside the square. These times are challenging, no doubt about that – but new challenges force us out our comfort zone into new ways of thinking and new ways of being. This is where we have stepped, with programs for Startups and Shakeups designed to create new thinking and new outcomes that focus on www.startupshakeup.co

Connection – Community – Skill Building – Mentoring – Support
